

## App's Necessity

## Brainstorm/Extra Ideas

## Tech Support

## Potential roadblocks

**Quickest  
way to get  
to that  
building**

Handicap  
accessibility

**how to  
get to  
office  
hours**

Calendar  
Implementation

can it deal  
with trains/  
other  
obstacles?

**Weather  
Updates?**

**On iOS  
and  
Android**

**How do  
students  
put in  
schedule**

How to get  
mapping/  
expected  
travel time  
information

**when to  
leave to  
make it  
on time**

**How to  
find  
building**

**Detailed  
Map of  
Campus**

alert professor  
of tardiness  
with expected  
eta

Teacher and  
students can  
talk and  
discuss in the  
App

Number of  
alerts and at  
what time  
intervals

**app or  
webiste?**

how accurate/recent  
are the updates

**School or  
personal  
emails?**

How to find  
classroom in  
building

How does  
time taken to  
get there  
change  
depending on  
time of day

**remind  
when  
class is**

**add  
chat  
box**

Is this just for  
USC or at  
multiple  
schools

**Laptops?**

**data  
privacy/  
security**

If you have  
two classes in  
the same  
building

If your routes  
match up with  
your friends

monetization?

A way to  
update  
changes in  
classroom

**How to  
measure  
success of  
app**

## Different locations

**Dorms**

Other: (Career Center, sporting events, gym)

**Academic Building**

**Food**

**Student Services**

## Transportation

public transportation

**bike**

track  
steps  
while  
walking

**driving**

walking

**uber**
